

Planet

We care for our planet and are committed to minimizing the impact of our business on the environment.

Water

1.39

Our Wilsonville, OR facility finished 2023 with a water use ratio of 1.39, being the first to surpass our goal of 1.40 or lower.

7

In partnership with The Coca-Cola Company, we invested in seven projects that will replenish water in Utah, Colorado and Arizona.

6

All six manufacturing facilities have source vulnerability assessments (SVAs) and water management plans (WMPs) validated by third-party experts.

Climate

247%

The rooftop solar panels in Colorado Springs, CO generate 247% of the electricity needed to power the building.

1

In 2023, one solar installation was completed in Glendale, AZ, with an additional rooftop solar project underway in Draper, UT.

3

We completed energy efficiency assessments through the Industrial Assessment Center, and university partners, at three of our manufacturing facilities.

Packaging and Waste

100%

Launched the expansion of 100% rPET packaging in 20 oz. Coca-Cola trademarked beverages.

96%

Diverted 96% of our manufacturing waste from landfill to recycling streams.

26%

Our primary PET packages consist of 26% recycled material, while our primary aluminum packages consist of 72% recycled material.

Product

We take care to ensure our products meet the needs and expectations of our consumers, customers and partners.

41%

Low or no-sugar beverages account for 41% of volume sold.

12

Reformulated 12 beverages with reduced sugar.

14%

Average sugar content has decreased by 14% compared to 2018 baseline.

People

We care for the people in the communities we call home.

9,015

Swire employees volunteered more than 9,015 hours.

\$3.5M
